WE HIRE THE BEST

Security Nationwide makes sure each candidate that performs duty on your property is fully qualified and trained under the Texas Department of Public Safety - Private Security Bureau (TXDPS-PSB) standards to ensure the safety and protection of your property, assets and people. With our extensive pre-hiring process, all candidates are put through a vigorous procedure making sure each officer is courteous, professional and have passed pre-screened background checks that include drug testing to ensure we find the most suitable candidate for the position. Security Nationwide is dedicated to premiere, world-class security services. Through our in house "Advanced Security Academy" we make sure every officer is fully equipped, knowledgeable on State Rules and Regulations as well as firearm certified to handle any situation. Having a properly trained security officer on your premises can lower the risk of liability, protect your business during and after hours as well as give you a peace of mind that your property is always protected. This training includes the following:

- General Training/Real Life scenarios
- Texas Statutes/Criminal Code of Procedures and Laws
- Report Writing/Note Taking and Observation
- Emergency Response Situations
- Fire Hazards
- Security Officer Authority
- Conflict Resolution/De-escalation
- Radio Procedures
- Bomb Threats
- Firearms Training and Range Qualification

SURVEILLANCE CAMERAS

With the increasing rate of crime in today's society, it's difficult for law enforcement and security personnel to be everywhere at all times. Our integrated security camera surveillance system provides business and homeowners peace of mind on there property. We offer full CCTV, Infar red, high-resolution cameras. Surveillance cameras mitigate crime and property damage by monitoring your property 24/7. With cameras in place and full live monitoring, our designated officers can alert owners and appropriate authorities of any intruders or suspicious activities during and after hours. With the capability of live feed and recording, all incidents can be used as evidence in court and for further investigation on an incident. Business and homeowners have the capability of viewing live camera feed from the comfort of their homes or business establishment at any time. Camera footage is recorded instantaneously through a digital video recorder (DVR) allowing events to be easily accessed for viewing purposes or transferred to CD or USB Drive for easy accessibility. The use of cameras can deter any unwanted intruders; protect and prevent property loss including damage and theft of valuable resources. Copper and metal theft is a serious problem which currently costs businesses and homeowners roughly \$1 billion dollars a year. Copper being stored in AC units, light poles, telephone lines/wiring, construction sites and electrical meters is a prime target for thieves. You can reduce the loss of your business resources, property damage as well as add an extra measure of physical security presence on your property with our advanced security camera monitoring systems. Let us meet your properties security demands with our premiere security solutions. Call us today for a free property assessment and security consultation.

PATROL VEHICLES

Security primarily acts as a visual deterrent. Patrol vehicles permit security officers to cover large areas of the property quickly and efficiently. Our Ford Crown Victoria patrol vehicles fully equipped with GPS navigation system, rotating light bars, push bumper, spotlight and full security decals ensure a maximum visual presence on your property. If your property requires a softer approach, we can accommodate with golf carts or bicycle patrol for easier accessibility. These types of patrol services are ideal for smaller properties with tight corridors and passages, it allows for the officer to interact up close with the residents and engage in public.

SECURITY NATIONWIDE OFFERS GUARD AND PATROL SERVICES FOR THE FOLLOWING:

- Banks
- Church's and establishments of worship
- Office Buildings
- Hotels/Motels
- Concerts
- Parties
- Car Dealerships/Showroom
- Gas Stations

With our advanced tracking technology, you are able to monitor the movements of your officer real time while they patrol their routes on your property. Special RFID tags are mounted at pinpointed locations along the property where areas of threat are imminent and weak points require a more visible security presence. Our system includes the ability to:

- Locate Security Officer Routes
- Track officer hours of security service and operations performed
- Track Start/End of shift times.
- Receive emailed alerts and reports
- Download reports to your computer for incidents and events that have occurred.
- Gain the ability to monitor the inactivity of foot patrol on premises.

We offer this additional level of service in our price quotes. Have the peace of mind knowing your property is constantly being monitored and the freedom to login wirelessly through your computer or smartphone and monitor your security officers performance, track their routes and check for accountability on your property.
